Thursday, June 24, 2010
Union Endicott High School, Endicott, New York
6:00 to 7:30 p.m.

From June 2009 participant: “For the past 15 years I have been the Medic and Safety Director for the Endicott Youth Football League. As you can imagine, I have seen my fair share of concussions. Attending your clinic was so informative that I am going to revamp our Policy and Procedures. We used the 15 minute rule and if players were showing no symptoms they were allowed to go back in the game. After your clinic, this policy will be phased out immediately. Thank you for the great service that you and your associates are performing for coaches, players and parents across the country.

Greg Diaferio, President & Medic, Endicott Youth Football League
